

Hello, my name is \_\_\_\_\_ from HAI, a national research firm.

**[IF LANDLINE]** We're conducting a survey in Kentucky to get people's opinions on important issues. This number was selected at random and according to the research procedure, I would like to speak to the **[ALTERNATE: YOUNGEST/OLDEST]** **[ALTERNATE: MAN/WOMAN]** at this address who is registered to vote.

**[IF CELL PHONE]** We're conducting a survey of cell phone users in Kentucky to get people's opinions on important issues. Since you are on a cell phone, I can call you back if you are driving or doing anything else that requires your full attention. Can you talk safely and privately now? **[IF YES, CONTINUE. IF NO, SCHEDULE CALLBACK]**

**RESUME ASKING ALL RESPONDENTS**

**QB.** Are you officially registered to vote in this county in Kentucky?

Yes..... 100%  
No/(Don't know) -----> **TERMINATE**

**QC.** In November, elections will be held for U.S. Senate, Congress, and other offices. But there is no election for President. Although it is a while away, how likely are you to vote in that election: will you definitely vote; probably but not certainly vote in it; are the chances about 50-50 that you will vote, or is it likely that you will not vote in November?

Definitely vote..... 79%

As I read each name, tell me whether your impression of that person is very favorable, somewhat favorable, somewhat unfavorable, or very unfavorable. If you don't recognize a name, just say so. Here's the first one: **[READ ITEM]** Have you heard of that person? **[IF YES]** Is your impression of that person very favorable, somewhat favorable, somewhat unfavorable, or very unfavorable?

As you may have heard, after five years of studying the Keystone XL pipeline, the Obama administration recently announced that it will delay a final decision, possibly until after the elections this fall.

**Q7.** The administration says it needs more time to gather information about the legal status and environmental impact of the pipeline.
