Clinton Lead Cut to 8% in Michigan *(Clinton 49% - Trump 41% - Johnson 3% - Stein 1%)*

EAST LANSING, Michigan --- With two weeks remaining before the election, the latest Fox 2 Detroit/Mitchell Poll of Michigan shows former Secretary of State Hillary Clinton leading businessman Donald Trump by a 8 percent margin in a in a four-way race that includes Libertarian Party candidate former New Mexico Gov. Gary Johnson and Green Party candidate Dr. Jill Stein. In the four-way race it is Clinton 49% - Trump 41% - Johnson 3% - Stein 1%, and 5% undecided. In a two-way race it is Clinton 51% - Trump 43% with 7% undecided.

In the last FOX 2 Detroit/Mitchell Poll conducted a week ago, Clinton's lead was 13%.

The IVR (automated) poll of 1,241 likely voters in the November 2016 General Election was conducted by Mitchell Research & Communications on October 23, 2016 and has a Margin of Error of + or - 2.78% at the 95% level of confidence.

"Clinton's lead has fallen from 13 percent before the last debate to 8 percent today as she dropped 2 percent and Trump gained 3 percent. The third party candidates have also dropped with Johnson down to just 3% and Stein 1%. The percentage of those who say they are undecided has actually gone up to 5% since our poll last Tuesday night. Clinton is still in a strong position, but her support has eroded in the past week," Steve Mitchell, CEO of Mitchell Research & Communications said.

In terms of key demographics:

Clinton continues to have a strong lead with women (54%-39%), but Trump is doing better with men and is now tied with Clinton (44%-44%).

Clinton leads by 18 percent with 18-44 year old voters (55%-37%), down from a 25 percent lead last Tuesday. Johnson was getting 9% with that age group last week but has fallen to 3% now. Stein has also dropped from 3% to 1%. Trump now leads with 45-64 year old voters (48%-41%), an age group with which he has shown steady improvement over the past two weeks. Clinton is even stronger with 65 and older voters (55%-34%) than she was last week (54%-40%).

Clinton continues to be stronger with Democrats (94% in the four-way) than Trump is with Republicans (88% in the four-way). Trump has increased his lead with Independents to 54%-14%, a major move since last week when he led by 10 percent (42%-32%).

By race, Trump now leads with white voters (47%-44%) after trailing Clinton with that demographic a week ago (48%-46%). Clinton leads with African-Americans (80%-11%) and with other ethnic groups (49%-33%).

By area, Clinton leads in the city of Detroit (89%-5%) and Outstate (48%-41%) while Trump now leads in the Tri-County area (48%-44%).

Other key findings:

- Both Clinton (45% Favorable-50% Unfavorable) and Trump (37%-57%) are unpopular. However, Trump's favorable increased by 4 percent and his unfavorable dropped by 4 percent. Clinton's unfavorable went back up to 50%.
- More people say jobs/economy (58%) is the most important issue in the presidential campaign than say national defense/terrorism (30%). Eleven percent is undecided.

"Trump has posted some gains, but he is trailing badly (60%-35%) among the one-in-five voters (18.5%) that has already voted by absentee ballot. Trump has a strong lead among the 4 percent of voters who did not vote in 2012, where he leads 67%-25%. Clinton still has a strong lead, but the race has tightened since the last debate," Mitchell concluded.

Methodology:

Mitchell Research & Communications used a sample of registered voters in the November 2016 Michigan General Election. Our goal is to spread as wide a net as possible to assure we survey voters who may not have voted in elections for a long time. A double filter was used to determine that we were surveying only likely voters.

- First voters had to say they were registered voters. If they were not, the phone call ended.
- Then, they were asked if they were definitely voting, probably voting, not sure yet, or definitely not voting in the November General Election, or if they already voted by absentee ballot. If they were "definitely not voting" the phone call ended.

Federal law only permits us to call land lines when using automated phoning. Any surveys that doesn't specify if they use cell phones do not use them. Data is weighted to reflect likely voter turnout by gender, age, and race.

(Steve Mitchell is CEO of Mitchell Research & Communications, an East Lansing, Michigan based national polling and consulting company. He is currently political pollster for FOX 2 Detroit. He has polled with great accuracy for the media in Michigan, South Carolina, Florida, Missouri, Illinois, and California. An examination of RealClearPolitics.com will show that in final polls before the election in races for president, U.S. Senator and governor in Michigan, his final poll results have been off by an average of only 2.75% from actual results 2008-2014.
