

New Hampshire Polling Results

One America News Network and Gravis Marketing, a nonpartisan research firm, conducted a random survey of 1,197 registered voters in New Hampshire regarding the presidential election and other areas. The sample includes 689 Republican Primary participants, 472 Democratic Primary participants, and the remainder not planning on participating in the primary, but are planning to vote in the regular elections. The poll has a margin of error of $\pm 2.8\%$ [3.7% for Republican Primary/ 4.5% for Democratic Primary] at the 95% confidence level. The poll was conducted from January 15th through the 18th. The total may not round to 100% because of rounding. The polls were conducted using automated telephone calls and weighted separately for each population in the question presented. The raw results are given after the weighted results.
