ACME, Michigan --- In a state-wide survey of Michigan conducted for the Michigan Association of Health Plans (MAHP) and released exclusively to MIRS, former Secretary of State Hillary Clinton (40%), leads businessman Donald Trump (34%) according to the most recent Mitchell Poll conducted by Fox 2 Detroit Pollster Mitchell Research & Communications. Twenty-seven percent remain undecided. The poll was released at the MAHP Annual Conference at Grand Traverse Resort and was conducted before the start of the Republican Party Convention in Cleveland.

The operator assisted survey of N=600 likely voters in the November 2016 General Election was conducted July 5-7 & 11, 2016 and has a Margin of Error of + or – 4% at the 95% level of confidence. Two-thirds of the calls were made to landlines and one-third to cell phones.

“With two very unpopular candidates, there are a high percentage of undecided voters. Hillary Clinton has done a better job of solidifying her base than Trump. Clinton is getting 79% of the Democratic votes while Trump is getting just 69% of Republicans. Although Trump is winning by 28%-9% with independents, almost two-thirds of the independent voters are undecided,” Steve Mitchell, CEO of Mitchell Research & Communications said.
