

RealClearPolitics

General Guidelines

- RealClearPolitics accepts HTML5 and rich media advertising.
- All sound in ads must be click initiated. Default audio must be muted.
- All ads must be clearly distinguishable from normal webpage content (i.e. ad unit must have clearly defined borders).
- All expandable ads must be third party served.
- All expandable ads must have a close button with clearly defined, "Close" or "X".
- All locally served ads require a click-through URL and one of the following file types: (1) PNG, (2) GIF, or (3) JPEG. Please see the advertising specifications for more details.

RealClearPolitics

Advertising Specifications

1. HTML5
2. Rich media
3. Third party served ads
4. Standard ad units
5. Ad formatting and creative guidelines
6. Video

HTML5

- RealClearPolitics accepts and has the ability to produce HTML5 ads. HTML5 ads must be submitted via third party tag or built in-house via the Adventive platform.
- Increased associated file size limits are as follows:
 - Initial Load: asset files are immediately loaded when the ad tag is inserted into the page. Desktop/Tablet 150 KB; Mobile (mWeb or In-App) 40 KB
 - Typical old/current specifications set this at 40 KB.
 - Web 2.0 allows for a more engaging user experience without slowing down the page load.
 - Politely Loaded: All of the creative's subsequent assets are downloaded once the host webpage has completed loading. Desktop/Tablet: 2MB; Mobile (mWeb or In-App): 300 KB
 - Typical old/current specifications set this at 150 KB.
 - HTML5 allows richer features but requires flexible size restrictions.

RICH MEDIA

- RealClearPolitics accepts rich media advertising. All rich media ads are tested before posting. Please allow 5 business days for testing.
- Supported creative types include dynamic HTML, animated GIF, JPEG. RealClearPolitics will not guarantee accuracy of click-through data for rich media ads. RealClearPolitics also reserves the right to refuse any creative.

THIRD PARTY SERVED ADS

- In instances where third party ads rotate multiple ads through one line of code, RealClearPolitics must see each ad to make sure it conforms to site standards and guidelines.
- When receiving third party ads, we must receive the username/password to view and report on the third-party numbers (along with our own) to ensure we are within an acceptable discrepancy range.
- RealClearPolitics reserves the right to pull third party served ads that are not rendering or rendering slowly. RealClearPolitics will pull the ad/ads and notify the advertiser.

RealClearPolitics

STANDARD AD UNITS

- Border: Advertisement should be encased by a one-pixel black border.
- Looping: On initial movie there is no looping.
- Frame Rate: Frame rate for all movies must be 12 frames per second (fps).
- Duration: Maximum duration of initial movie must be 30 seconds.
- Rotation: There should be no more than 5 creatives can be rotated at a time.
- Alternate GIF: 15-20K for Static or Animated GIFs. Animated GIFs loop no more than three times with a refresh time of at least two seconds.
- Alternate Text: Text must be provided and cannot exceed 50 characters.
- Sound: All audio must be user-initiated. The use of audio streams lasting one second or longer must be initiated by click only. Sound under one second is allowed for mouse over events (this refers to “click or “beep” sounds). If deemed too distracting, RealClearPolitics reserves the right to ask that the advertiser remove the audio. Use of audio in the download must include the option for turning off audio. This option must be clearly labeled in the ad.
- Third Party Serving: RealClearPolitics allows third party serving of creative within iframe tags.
- Fourth Party Serving: RealClearPolitics does not allow fourth party serving of creative.
- Testing: Creative must be delivered 5 business days prior to launch for testing and troubleshooting. All creative must function uniformly on both Mac and PC platforms, as well as multiple browser versions of Internet Explorer, Firefox and Safari. Any units not conforming to all outlined specifications will not be placed online and will result in delayed start dates.
- Accepted Rich Media Technology: Refer to Rich Media list above.

AD FORMATTING & CREATIVE GUIDELINES

- No “user-duping” ads (i.e. fake pull downs, error messages, etc.)
- Ads that cause images to fall onto the page must be user initiated.
- Rich media must include alternate images to run across multiple non-Java enabled browsers.
- Ads that change a user’s cursor must do so on mouse-over only. Ads must not modify any elements of a user’s browser or computer settings.
- No ads that resemble RealClearPolitics editorial content (exact or close replica) will be accepted. Ads must not include references to RealClearPolitics unless part of co-promotions.
- Ads, when clicked, must spawn a new window.
- Ad code must be attached to email as a TXT file.

RealClear Politics

VIDEO

- Pre-roll is a linear ad that appears before the video content. Video player includes support for companion ads, which can display on the page along with the video.
- Format: VAST; every tag in a VAST chain must point directly to VAST XML. HTTP redirects are not supported.
- DFP transcodes a video into all of the supported format/resolution combinations that are the same or smaller resolution than the uploaded video. Refer to the table and examples below for more information.

Container/Video codec	Output resolution range	Maximum video+audio bitrate (kbps)
FLV/H.263	320x240 to 640x480	256+64
FLV/H.264	480x360 to 854x480	360+96
FLV/H.264	640x360 to 854x480	1200+96
3GPP/MPEG-4	320x240	192+64
3GPP/MPEG-4	176x144	56 + 24
MP4/H.264	640x360	640+96
MP4/H.264	1280x720	2000+128
MP4/H.264	1920x1080	3500+128
WebM/VP8	480x360 to 854x480	360+96
WebM/VP8	1280x720	2000+128
