Biden's Lead Cut to 7% & Peters' to 5% *(Biden 52% - Trump 45%/Peters 50% - James 45%)*

EAST LANSING, Mich. — Former Vice President Joe Biden's (52%) lead has been cut from ten percent to seven percent over President Donald Trump (45%) in Michigan while US Senator Gary Peters (50%) has seen his lead drop to five percent from nine percent over challenger John James (45%) in the race for the US Senate according to a poll conducted by Mitchell Research Communications of likely voters in the upcoming November 3rd Election.

The poll used a combination of IVR (automated) surveys as well as text message polling to cell phones of those under the age of 45. The survey of N=817 Likely Voters was conducted Thursday, October 29, 2020 has a Margin of Error of + or – 3.43% at the 95% level of confidence.

“Joe Biden's lead has been cut to single digits over President Trump since our Sunday-Tuesday poll. Biden's share of the Democratic vote dropped from 98% to 93% while Trump has dropped a point to 90% of the GOP vote. Biden continues to have a wide forty percent lead with independents, 64%-26%. By gender, Biden leads with men 52%-46% and with women by 53%-44.5%. Trump is gaining, but it might be too little too late if he is going to win Michigan,” Steve Mitchell, president of Mitchell Research said

In terms of issues,

- Thirty-one percent said Jobs/Economy is the most important issue in their choice for president and Trump has a huge 79%-18% lead with voters who cite the issue.
- The coronavirus (26%) is second and Biden leads by a whopping 94%-4%.
- Law & Order (18%) is next, where Trump has a whopping 91%-6% lead.
- Healthcare (14%) is fourth and Biden leads by a strong 88%-11% margin.

About 50% approve of the job Trump is doing, while Governor Whitmer's job approval is 58%.

“Biden seems to be in command in Michigan, but the race is narrowing while John James is now within five percent of Gary Peters,” Mitchell concluded.
